Abstract

While talk about rights, justice, it is assumed that all are same irrespective of what he/she is in the society, but the practicality claims otherwise and her impact is well known to us as the poor, basically, the women of our society are ill-treated. Again, it is seen that, human rights speaks well only to the people of myth and the poor can only dreamed of the brand name '*Human Right*' as a strong base of law for their protection. Lacuna is with the economic soundness which actually discriminates in Rights (Justice) in between the rich and poor of our society and that will not fine until the reason of such discrimination being removed from the society and microfinance can play an active role in this respect, as microfinance become global phenomena for the poor and deprived, so an attempt has been made in this paper to highlight how economic soundness by microfinance helps in sustaining the rights of the poor in the society and this empirical study have been made considering all relevant materials, that includes books, journals, e-journals, magazines, etc.

Key Words: Microfinance, Economic Empowerment, Poor, Rights.
